Job Description:

The Education Department of Saint Michael's College is seeking an active scholar and collaborative colleague for the position of assistant professor in Math, Science, and Technology Education. This tenured line faculty member will be an integral part of a cohesive Education Department and is expected to prepare undergraduate and graduate pre-service educators to teach STEM education at the elementary and secondary levels. A successful candidate will have a strong commitment to the Education Department's mission of social justice in education, sustainability, service to local communities, and creativity in promoting innovative educational practice. Additional duties include supervising student teachers, developing partnerships with nearby schools, collaborating with faculty in STEM departments at Saint Michael's College, and serving on state, college and Education Department committees.

Benefits include health, dental, vision, life, disability, 401(k), employee and dependent tuition benefits, and discounted gym membership.

Requirements:

Required Qualifications:

- Earned doctorate in teacher education in math, science or STEM related field
- Successful experience in teaching math, science or STEM related field in public schools
- Evidence of effective incorporating of technology in instructional practices
- Commitment to working with diverse student populations

Additional Desirable Qualifications:

- Successful teaching experience in teacher education at the university or college level in a STEM related field
- Evidence of teaching and research for social justice and/or sustainability
- Experience advising students, supervising student teachers, and creating partnerships with local community schools and/or educational centers

An offer of employment will be contingent upon the successful completion of a background check.

Additional Information:

Saint Michael's College, inspired by our Edmundite Catholic mission, is committed to creating an educational environment that values and supports diversity and inclusion, and acknowledges our Catholic heritage. Applicants are invited to include in their cover letter and other documents information about their experience supporting diversity and inclusion and how they may contribute to our goal through their research, teaching

and/or service.

Application Instructions:

Please visit the Saint Michael's College Employment Opportunities web page to apply for this position:

<http://smcvt.interviewexchange.com>

Please be prepared to attach the following documents after clicking on Apply Now button:

- Cover letter including a description of potential contributions to the department
- Curriculum vitae
- Names and contact information for three references (graduate school transcripts and reference letters may be requested of finalists at a later stage). At least one reference should be able to address teaching.

Review of Applications will begin on September 30 and continue until an appointment is made.
