

The Emma Eccles Jones College of Education and Human Services at Utah State University invites applications for a tenure-track position at the Assistant or Associate Professor level to join the internationally recognized Department of Instructional Technology and Learning Sciences (ITLS). All relevant specialization areas are welcome. Individuals who bring scholarly and applied expertise in the areas of learning technologies and instructional design with direct experience in design and development are especially encouraged to apply. Successful candidates will, by the time of appointment, have (1) a doctorate in Learning Sciences, Instructional Technology, Information Sciences, Educational Psychology, or other related fields and (2) have demonstrated excellence or the potential for future excellence in research and teaching.

The successful candidate is expected to develop a cutting-edge research program, supervise graduate students, and teach graduate and undergraduate courses delivered in face-to-face, broadcast, and online formats. Candidates will have expertise in relevant theories, technologies, or methods and be prepared to teach existing course offerings in the department, especially in the Masters program in Learning Technologies and Instructional Design, and propose innovative new courses that will serve the needs of the student population. Successful candidates will be receptive to opportunities for collaboration within the department, college, or university. Candidates at the Associate level will have an established record of productivity and effectiveness that merits tenure at Utah State University, a [Carnegie Research University with high research activity](#).

The department is composed of eleven full-time faculty with specializations in several areas including gaming, STEM education, assessment, pedagogical agents, the Maker movement, problem-based learning, mobile technologies, cognitive science, digital libraries, and wearable technology. The department offers Ph.D. and Master's degrees along with endorsements in School Library Media Administration, Distance Learning, and an undergraduate minor in Multimedia Development. Faculty have received national awards for teaching, research, and service, and serve in a variety of leadership positions in professional and scholarly organizations. The ITLS department has a strong track record of procuring research funding from the Department of Education, the National Science Foundation, and other funding organizations.

Utah State University (USU) is a land grant institution based out of Logan, Utah with nearly 25,000 undergraduates and over 3,000 graduate students. US News and World report ranks the Emma Eccles Jones College of Education and Human Services among the top 30 graduate schools of education in the nation, 5th for funded research, and the college's rapidly expanding online programs have been ranked 17th in the nation. USU is located an hour and half north of Salt Lake City and 3 hours from Jackson Hole, Wyoming. Logan is close to National Parks and scenic in its own right. The immediate region is frequently ranked as one of the safest regions in the country and offers a variety of cultural experiences and outdoor activities, including access to world class skiing, fishing, mountain biking, and hiking trails.

Utah State University is an affirmative action/equal opportunity employer (<http://aaeo.usu.edu>) sensitive to the needs of dual-career applicants. The University is dedicated to recruiting stellar candidates from a diverse pool including women, minorities, veterans, and people with disabilities. Individuals from underrepresented populations are strongly encouraged to apply. USU offers competitive salaries and outstanding medical, retirement, and professional benefits (<http://personnel.usu.edu>).

Interested applicants should submit a cover letter, CV, one sample of scholarly writing, a statement describing the applicant's research agenda and teaching philosophy (1-2 pages, select Other document type) and a list of three professional references (including names and contact information, this information will be captured on the application). Inquiries may be directed to Paula Koeven (paula.koeven@usu.edu). Review of candidates will commence on September 5, 2016 and continue until the position is filled.
